# INVESTMENTS

Would you be interested in a bona fide industrial business proposition that will pay 100 per cent dividends every year as long as you live; where business policies are based on the judgment of successful leading citizens of Phoenix and Maricopa county and where the element of chance is entirely eliminated. We are in position to submit facts and figures which any one can easily verify. We are fully two-thirds financed and going ahead. We court investigation. Address Box 68 W Republican office.

FOR SALE-MISCELLANEOUS HAVING bought the business and cood will of Taylors Auction House, I ill run it as a retail furniture, and commission auction house; will buy all of your furniture, hardware, guns; spot cash, high prices. Phone 1776 or 1917

# You Can Increase Your Yield 3 to 9 Bushels per Acre

Several farms in California got 3 to 6 bushels; Illinois, 5; Kansas, 31/2 and Iowa 9 bushels more per acre by drilling small grain instead of broadcasting.

Here is the big advantage in drilling which we want all of our customers to understand-only one trip over the field is necessary to plant the seed. The drill completes four operations-it makes the seed furrows, drops and covers the seed, and pulverizes the soil. Not necessary to drag the harrow over the field afterwards.

You will always need a machine of some kind for planting your small grain crops. Why not get one from us now that will do all of this work-one that plants the seed at even depth so that the crop will all be ready for harvest at one

We have the drill in stock that we know will do the work for you. It is a John Deere-Van Brunt-the famous drill that has worked very successfully all over the country for forty years. We want you to know all about the Van Brunt Grain Drill. It has a Patented adjustable gate force-feed that will interest you in the way it works. Come in and let us show you how easy it is to plant even, continuous streams of fine, medium or coarse seed with this drill.
